Sharath Kumar Ganta

Digital Transformation and AI Architect

+91 9172762318 | Sharath.Ghanta@gmail.com | linkedin.com/in/sharath-pawar-4b340514b

PROFESSIONAL SUMMARY

Digital Transformation Architect with 13+ years of experience in RPA, Generative AI, and Agentic AI solutions. Delivered 80+ automation solutions reducing costs by 60–70% and improving SLA compliance by 60%. Experts in LLM integration, AI agents, hyper automation, AI governance, and enterprise architecture.

CORE COMPETENCIES

- GenAI & LLM Integration (Azure OpenAI, GPT-4, Claude, Llama)
- Memory Management, Planning Agents, AI Orchestration Governance, Prompt Security, Hallucination Control
- Agentic AI & Autonomous Workflows, RAG
- Agentic Frameworks like Lang Chain (chains, tools, agents) Lang Graph (multi-step workflows) ,AutoGen (multi-agent systems)
- Intelligent Automation & Hyper automation, multi-agent Orchestration
- AI Governance & Responsible AI
- Cloud Architecture (AWS, Azure)
- RPA Platforms (Automation Anywhere A360, UiPath, Power Automate)
- Process Mining (Celonis)
- DevOps, CI/CD & Agile Transformation
- Enterprise Architecture

TECHNICAL SKILLS

RPA Tools	Automation Anywhere (AA360), UiPath, Power Automate, Blue Prism, Work Fusion
Process Mining	Celonis Process Mining, Celonis Task Mining
Gen AI / AI	Agentic AI, NLP, LLM, Generative AI, Cognitive Automation, RAG Architecture,
Cloud	AWS (Solutions Architect), Microsoft Azure
Programming	Python, JavaScript, HTML5, CSS, .NET, FastAPI, Async workflows
Web Services	REST, SOAP, WSDL, XML, Web Services, Identity & Access Management
Databases	MySQL, Vector Database, Graph DB, Manago DB,Vector Databases
Analytics	Power BI
Integrations	SAP, Salesforce (SFDC), AI/ML Platforms
Methodologies	Agile, Scrum, Lean, Six Sigma (6σ), DevOps

KEY ACHIEVEMENTS

- Delivered 80+ RPA & GenAI, AI Agents automation solutions
- Reduced manual effort by 70%
- Improved SLA compliance by 60%
- Established and scaled RPA CoE across organizations

PROFESSIONAL EXPERIENCE

Automation Lead | **Aligned Automation |** *2019 – Present*

- Led 80+ Automation Solutions reducing effort by 70%
- Defined enterprise hyper automation strategy
- Improved delivery speed by 40%
- Ensured 99.9% platform availability
- Led pre-sales and architecture for enterprise clients
- Lead end-to-end design, development, deployment, and operations of RPA and Gen AI-powered bots across enterprise clients.
- Architect intelligent automation solutions integrating Automation Anywhere, UiPath, and Power Automate with SAP, Salesforce, and AI/ML platforms.
- Drive Agile transformation strategy includes roadmap creation, coaching, and mentoring across cross-functional teams and managing directors.
- Conduct Agile and DevOps assessments to enable Continuous Improvement and reinforce Agile Ways of Working.
- Lead pre-sales activities including feasibility assessments, ROI calculations, and solution architecture for prospective clients.
- Collaborate with Process SMEs to prepare Process Design Documents (PDD) and Solution Design Documents (SDD).
- Design and implement Disaster Recovery and Business Continuity strategies for automation platforms.
- Enable clients to incubate, scale, and institutionalize transformation COEs, POTs, POCs, and POVs.
- Develop configurable alert mechanisms (email/SMS) for bot monitoring and SLA compliance.

RPA Center of Excellence (CoE) Lead | **Yash Technologies** | *2018 – 2019*

- Established and led the RPA Center of Excellence, defining best practices, governance standards, and automation frameworks.
- Designed cognitive bots combining RPA with AI/ML and NLP capabilities, advancing automation beyond rule-based processes.
- Mentored development teams on bot design patterns, deployment pipelines, and operational excellence.
- Assessed and prioritized automation candidates using ROI-driven feasibility analysis.

Senior RPA Consultant | Capgemini | *2017 – 2018*

- Delivered RPA consulting engagements across multiple industries, implementing bots to automate complex business processes.
- Led solution design workshops with client stakeholders, translating business requirements into scalable automation architectures.
- Promoted Agile and DevOps cultural change to support and accelerate RPA adoption, tracking maturity through assessment frameworks.
- Championed process optimization using Lean and Six Sigma methodologies to maximize automation ROI.

Senior RPA Consultant | **Allvy Software Solutions** | *2012 – 2017*

- Delivered full-lifecycle RPA implementations including requirements analysis, design, development, testing, and production deployment.
- Developed automated solutions using Automation Anywhere and related RPA tools, integrating with web services (REST, SOAP, XML).
- Built expertise in process digitization, AI/Robotics, and advanced data analytics to support intelligent automation initiatives.
- Collaborated with business stakeholders to educate teams on production bot management and process governance.

EDUCATION

Bachelor of Technology (B. Tech) | *JNTU Hyderabad | 2008 – 2012*
